

# Royal Baking Powder

Absolutely Pure

## The Government Tests

prove Royal Baking Powder pure and healthful, made from grape cream of tartar, absolutely free from alum or phosphoric acids and highest of all baking powders in leavening strength. The Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any baking powder in the world. It makes pure, clean and healthful food.

## Avoid Alum Baking Powders

"I am very strongly of the opinion that the use of alum and salts of alumina in food should be prohibited. It is well understood that the constant use of alum compounds exerts both a deleterious effect upon the digestive organs and an irritation of the internal organs after absorption."

EDWARD S. WOOD, M.D., Professor of Chemistry, Harvard Medical School, Boston.

It must be remembered that when alum baking powders are used in making bread, biscuit or cake, a portion of the alum is carried unchanged into the stomach. Ten-cent, twenty-five-cent, cent-an-ounce powders contain alum.

## GENERAL GRIEVANCE COMMITTEE TO MEET

Representatives of the Entire Louisville and Nashville System of Order Railway Conductors to Assemble Here Monday Morning.

WILL MEET MONDAY MORNING IN THE PARLORS OF THE MERCHANTS HOTEL AND REVISE THE AGREEMENT WITH THE L. & N. SYSTEM.

The general grievance committee of the Order of Railway Conductors of the entire Louisville and Nashville system is to convene in Pensacola Monday morning for a session of several days. The meeting will be held in the parlors of the Merchants hotel and a delegate from each division will be in attendance, making a total of fifteen members.

The members of the committee will begin arriving in Pensacola in the morning, and it is anticipated by tomorrow night all delegates will be here and prepared to commence the work assigned to them. S. H. Allen, of Hite, Tenn., is chairman of this committee, which is considered the most important of any connected with the Order of Railway Conductors, and the chairman of the grievance committee of each division is a member. E. M. Wilson of this city, represents this division of the system, having been re-elected recently after serving about eleven years in that position.

The business of the meeting is to go over each division and adjust differences, arranging the amounts to be received by members of the order, the number of hours they shall work and other matters of this nature. Later this agreement is submitted to the general officers of the Louisville and Nashville system, when each member goes to Louisville for a conference. It is expected that the visitors will be highly entertained, being given a trip about the harbor and banqueted.

## THE EUROPEAN LUMBER MARKET

S. Rubenstein, managing director of the Great Eastern Timber Company, of London, England, is in New Orleans looking after the company's interests on this side. The company Mr. Rubenstein represents acts as commission agents for many European lumber buyers, and they buy lumber in the States for the English and Continental markets. He said to a representative of the Picayune, that the European market is now handling large quantities of long and short leaf yellow pine, and also hardwoods, but very little cypress.

Mr. Rubenstein finds that the American markets are very favorable. He says that a little while ago English lumbermen could get just what they wanted from this side, but this is almost impossible now, because of the strong domestic demand.

The English market is distinct from the London market, because lumber shipments from all over the world go to London, and as England is a free-trade country, lumber dealers find it is possible to purchase foreign importations of lumber below the market value of the English production.

So far as the Continental market is concerned, Mr. Rubenstein says that there seems to be an opening now for American lumber in the countries of Denmark, Norway and Sweden, as those countries are taking to manufacturing. France and Germany require more lumber for manufacturing purposes.

"Itch pine finds a ready market all over England and Germany. Mr. Rubenstein says that the same condition may apply to France, but he does not know so much about that country, and, therefore, can't speak about it in an authoritative way.

Mr. Rubenstein says that in London the local members of the O. R. C. have been actively engaged during the past few days arranging to entertain the members of the grievance committee. It is expected that the visitors will be highly entertained, being given a trip about the harbor and banqueted.

## BURTON WELL TREATED AT CAMP

Chief Clerk McLin of Agricultural Department, Investigated Reports.

The reports, which have been in circulation for some time past that B. Burton, formerly deputy clerk of the Escambia county circuit court and other prisoners confined at Varn Bros. camp, had been cruelly mistreated and badly whipped upon several occasions, seems to be without foundation.

The reports reached the office of the commissioner of agriculture some time since, and Chief Clerk E. E. McLin of that department, came here recently from Tallahassee to make a thorough investigation of the matter. After several days of hard work he succeeded in getting at the bottom of the facts, and found that Burton as well as others, at work at Varn Bros. camp were well treated. Mr. McLin said last night that Burton himself stated that both the lessees and guards had treated him very kindly, and that no punishment in any form had been inflicted upon him.

Mr. McLin, however, found several minor defects in the management of the convict camp there, which resulted in the discharge yesterday of two guards who had been employed for some time. He said that the management would rectify the defects found and he expected that within sixty days the camp would be one of the best conducted in the state.

Burton was brought to the city yesterday by Mr. McLin, the former deciding the best policy would be to place him in some other camp in the state, where he would not be so near home. He will take him as far as Tallahassee this morning and it is possible that he will be sent from there to Ocala.

## Grip Quickly Knocked Out

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of a gripe with all its miserable symptoms," says Mr. J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, adding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip. These Tablets promotes healthy action of the bowels, liver and kidneys which is always beneficial when the system is congested by a cold or attack of the grip. For sale by all druggists.

**The Best Painting at the Exhibition.** Lover—This landscape is undoubtedly the best picture in the exhibition. It strongly resembles that beautiful scene where Leonora gave me to understand that she reciprocated my affection.

Lady—This portrait of a lady deserves the first prize. The dress is quite inimitable and was, no doubt, made by a first class Paris couturier. Gormand—A still life! Oysters, lobsters, champagne and even a goose liver pate! This is the most perfect picture I have seen yet.

Average Visitor—At the back yonder is the finest picture in the exhibition. I haven't seen it yet, but it draws the biggest crowd.

Professor—In this historical painting the costumes are most faithfully delineated. I have not seen a picture that I like better.

Gamekeeper—This portrait of a dog is wonderfully like my dead Jumbo. It's the best picture in the lot.

Painter—I have seen all the other fellows' pictures, but my own is the finest after all.—From the German.

**Friendly Comment.** "I can't see why it is that some men will go in raptures over a silly woman," said the fair girl to her chum. "Who's been making love to you now, dear?"—Milwaukee Sentinel.

**A Hollow Tooth.** A hollow tooth, becomes a receptacle for fragments of food, and unless these are removed they undergo decomposition, making the breath very offensive. The use of a toothpick does not suffice. One must use a brush and some antiseptic powder or wash. A pinch of boracic acid placed on the brush, and applied to the hollow tooth is excellent. It will also tend to arrest the spread of decay to other teeth. One cannot be too careful in keeping a brush clean. Merely rinsing in cold water is not sufficient. Once or twice a week the brush should be dipped into a warm solution of boracic or a weak solution of carbolic acid, one part in forty, and then be rinsed.

**Evesdroppings.** She—I wouldn't be surprised if the servant girl were listening at the keyhole. He—Nor I. That's a woman's trick. She—Oh, indeed? He—Of course. That's why it's called Eve's droppings.—Philadelphia Press.

In the temperate zones the maximum of heat is attained about a month after the longest days.

den they are suffering from consignment shipments. If a shipment is consigned to a broker, the broker will endeavor to get a price. This is all right in many lines, but to do it in lumber weakens the market.

## MOBILE BUCK GIN

There's the life and vim of youth in every bottle. Invigorating. Strengthening. Keeps the system in good trim. Adds new life.

## POWELTON

## Special to The Journal.

Powelton, Dec. 1.—We are sorry to say the chicken thieves are at work again. Mr. J. B. Welch had the misfortune to lose quite a number of his fine chickens last week.

The many friends of Mr. Jim Holman will regret to learn that he is sick again.

Mr. John Mullins returned to Anniston, Ala., last week, after a pleasant visit to his mother and other relatives.

Mr. Amos Sharit, our popular operator, has been transferred to McDavid, Fla., where he now holds a position as operator and agent. Mr. Sharit made many friends during his short stay here.

Mr. and Mrs. C. F. Jennings and children James, Maude, Joe and Freddie Lee, of Muscogee, were visitors here this week.

Mrs. J. H. Mullins of this place and daughter Mrs. J. M. Welch and children Louise and Sidney of Muscogee left Wednesday at noon to visit friends and relatives at Century, Fla.

Mr. G. G. Hardy is repairing his house, which improves his place very much.

Mr. and Mrs. T. L. Boyen of Muscogee visited Mrs. Mullins last Sunday afternoon.

Miss Mary Lewis of Muscogee was the guest of Miss Lewis and Mary Mullins last Tuesday and Wednesday.

Mrs. G. G. Hardy was a visitor in Pensacola Monday.

Mrs. J. M. Welch, Miss Lena Mullins and Miss Mary Lewis, made a business visit to Pensacola this week. The entertainment at the M. E. Church Thanksgiving evening was a success.

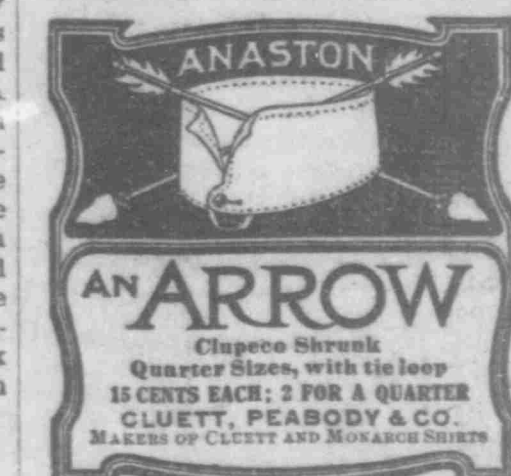

**Washington's First Thanksgiving.** The initial national Thanksgiving was held under a proclamation by George Washington in the first year of the new republic, 1789.

Washington issued one proclamation of like nature in 1795. Adams also issued one or two, and Madison called for a day of thanks after the close of the war of 1812.

So far as presidential notice was concerned, the day was allowed to lapse, however, until permanently revived by Abraham Lincoln in 1863.

In 1870 congress passed a law making the day set apart by the president as one for offering thanks a national holiday.

**One Danger Avoided.** "I may run chances of a branch of promise suit," said the foxy old bechever, "but there is some satisfaction in knowing that the divorce court can't touch me."—Detroit Free Press.

## TURNER OUSTED; ZELIUS CH'RMAN

(Continued From First Page.)

the mayor, Mr. Zelius and Chairman Turner. It finally resulted in defeat of the resolution, both the mayor and Mr. Zelius voting against its passage.

Another Resolution. Mr. Turner then introduced the following resolution:

"Resolved, That any authority now vested in J. E. Long as street superintendent of the City of Pensacola, is hereby vacated and that Chas. H. Gingles be instructed by the chief of the Board of Public Works, Chas. H. Turner, to report for duty as street superintendent on Saturday, December 2."

Like the other this resolution was defeated by a vote of two to one.

Chairman is Ousted.

Mayor Bliss then sprung something of a surprise on the board by introducing a resolution ousting the chairman, Mr. Turner, from that position. It is as follows:

"Whereas, At the meeting of the Board of Public Works held June 15, 1905, a motion was made and carried to elect C. H. Turner chairman of the board for the ensuing two years; and

"Whereas, Alex Zelius was the senior member of the board, holding over from the former term; and

"Whereas, The city has since that time been visited with an epidemic of yellow fever and it was of supreme importance that the Board of Public Works remain at its active post of duty and become the prime factor in controlling and stamping out the disease by cleaning the city, destroying the hiding places and breeding places of the mosquito, and ditching and filling up the ponds and holes and sloughs where the disease bearing mosquito breeds; and

"Whereas, Two members of the board did remain at their post of duty, one of which was Alex Zelius, and the board did perform active service day and night and did do more than any other agency to stamp out yellow fever; and

"Whereas, C. H. Turner forsook his post of duty absolutely and entirely, without leave of absence, apology notice, or explanation and completely ignored all meetings of the board although notified of each meeting, and remained away from his post of duty during the entire epidemic of the city's sore distress; therefore be it

"Resolved That the motion made and carried on June 15, 1905, making C. H. Turner chairman of the Board of Public Works, be reconsidered."

Chairman Turner stated that some portions of the resolutions were untrue, and that a member of the board did not have to have permission to leave the city.

The resolution, however, was passed by the same vote.

Zelius—chairman. Mr. Zelius was then nominated by Mayor Bliss as the chairman of the board, and was elected by the same vote of two to one.

## A Certain Cure for Croup.

When a child shows symptoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years and has never been known to fail, viz: Chamberlain's Cough Remedy. Mr. M. E. Compton of Market, Texas, says of it, "I have used Chamberlain's Cough Remedy in several cases of croup with my children, and can truthfully say it always gives prompt relief." For sale by all druggists.

## Might Spoil the Effect.

When Marshal MacMahon was president of the French republic an incident occurred which illustrates the Frenchman's love of what is dramatic. A French soldier sat on the summit of a hill overlooking a garrison town. His horse was picketed close by. The man was smoking leisurely, and from time to time he glanced from the esplanade to an official envelope he held in his hand.

A comrade passed by and said:

"What are you doing here?"

"I am bearing the president's pardon for our friend Flichmann, who is to be shot this morning," replied the smoker calmly without changing his comfortable attitude.

"Well, then, you should hurry along with your pardon," admonished his comrade.

"Oh, no!" exclaimed the other in some indignation. "See, there is hardly a soul yet on the esplanade, and the firing platoon has not even been formed. You surely would not have me rob my appearance of all dramatic effect, my friend!"

## Electro Magnets.

The familiar horseshoe magnet is made of highly tempered steel and magnetized so that one end is a north pole, the other a south or perhaps more commonly known as a negative and a positive. Once magnetized it is always magnetic unless the power is drawn from it by exposure to intense heat. An electro-magnet, however, can be made from any scrap of soft iron, from a piece of ordinary telegraph wire to a gigantic iron shaft. When a current of electricity passes through an insulated wire coiled about a soft iron object such as a nail, a bolt or a rod, that object becomes a magnet as long as a current of electricity is passing through the coils of wire or helix. A coil of wire in the form of a spiral spring has a stronger field than a straight wire carrying the same current, for each turn or convolution adds its magnetic field to that of the other turns, and by having the center of the coil of iron, which is a magnetic body, the strength of the magnetism is greatly increased. —Joseph H. Adams in St. Nicholas.

## NERVOUS PROSTRATION

Leonard Weinheimer, Who Was About to Collapse From Nervous Prostration, Is Brought Back to Complete Health and Strength in Three Months by Duffy's Pure Malt Whiskey.

LEONARD WEINHEIMER.

"I never felt so well as I have since I began its use, and I recommend it as the greatest tonic in the world."

"I tried many different remedies in the effort to build up my system, which had become nervous and rundown from overwork, worry, loss of proper rest and unreasonable hours, but nothing seemed to help me, so I began to take Duffy's Pure Malt Whiskey. One bottle of your medicine almost cured me, and in three months I was a healthy, strong man. Really I have never felt so strong and well as I have since I began its use. I cheerfully recommend Duffy's Pure Malt Whiskey as the best health-builder and tonic-stimulant in the world."—LEONARD WEINHEIMER, 1306 S. 3d St. St. Louis, Mo.

## Duffy's Pure Malt Whiskey

For more than fifty years Duffy's Pure Malt Whiskey has been prescribed by doctors and used in over two thousand leading hospitals as the greatest tonic, stimulant and health-builder known to medical science. It is endorsed by the clergy and professional nurses and recommended by all schools of medicine as a positive cure for pneumonia, consumption, grip, dyspepsia, indigestion, nervous prostration, all diseases of the throat and lungs, and every form of stomach trouble, malaria, chills, fever, and run-down, weakened conditions of the mind and body. It is a heart tonic, blood purifier and promoter of health and long life; makes the old young, and keeps the young strong. Duffy's Pure Malt Whiskey contains no fusel oil and it is the only whiskey recognized by the Government as a medicine.

There is but one Duffy's Pure Malt Whiskey. Insist on having the genuine and refuse cheap substitutes and imitations, which are placed on the market for profit only and which are positively harmful to both body and brain. Look for the trade-mark, the "Old Chemist," on the label, and be sure the seal on the bottle is unbroken. Sold in sealed bottles only; never in bulk.

All reliable druggists and grocers, or direct, \$1.00 a bottle. Advice and medical booklet free. Duffy's Pure Malt Whiskey Co., Rochester, N. Y.
